Job Title: Sr. Healthcare Consultant III (s) (full time; multiple openings), Job Code – CT93

Work Experience Required: 2 years

Location: Princeton, New Jersey and various unanticipated locations throughout the U.S

Duties:

- Work with IT project managers to execute IT projects for clients in the U.S. healthcare industry.
- Interact with business users to identify project requirements.
- Translate these requirements into technical specifications used by the software development and Quality Assurance (QA) teams to design and test the software.
- Document project specifications and prepare workflows to ensure accuracy.
- Help to design and validate test cases and scenarios as well as to review test scenarios to ensure compliance with clinical data quality requirements.
- Prepare Business Requirement Documents (BRD).

Must have Master's Degree (or foreign equivalent) in Computer Science, Business Administration, Health Administration, Engineering (any), or related field, plus two years of IT experience. One of the two years must include experience with SQL Server, HL7, Visual Basic and SVN. In lieu of the above education and experience requirements, we will accept a Bachelor's Degree (or foreign equivalent) in Computer Science, Business Administration, Health Administration, Engineering (any), or related field, plus five years progressive post-bachelor's IT experience. One of the five years must include experience with SQL Server, HL7, Visual Basic and SVN. Any suitable combination of education, training, or experience is acceptable. All experience may be acquired concurrently. Travel and relocation required, to be reimbursed by employer. Incidental telecommuting permitted. EOE M/F/D/V.
