

Job Title: Senior Technical Specialist (full time; multiple openings), Job Code – CTI49

Work Experience Required: 2 year

Location: Princeton, New Jersey and various unanticipated locations throughout the U.S

Duties:

- To design & develop software architecture for healthcare programs.
- Participate in meetings about the software architecture and to determine the system requirements.
- Help to prepare project specifications and requirements documents.
- Write software code as necessary to support project needs.
- Provide assistance & technical support to ensure successful project delivery.
- Communicate with other team members about the project including those working offsite.

Must have Master's degree (or foreign equivalent) in Computer Science, Engineering (any), or related field, plus two years of IT Experience. One year of the two years must include experience with C#, Asp.net, Web API and JavaScript. In lieu of the above education and experience requirements, we will accept a Bachelors degree (or foreign equivalent) in Computer Science, Engineering (any), or related field, plus five years progressive post-bachelors IT experience. One of the five years must include experience with C#, Asp.net, Web API and JavaScript. Any suitable combination of education, training, or experience is acceptable. All experience may be acquired concurrently. Travel to various CitiusTech sites and clients' sites required based on project need. Domestic and international travel expected to take up to approximately 10% of the time per year. Travel and reimbursement costs reimbursed by the employer based on internal policy. Incidental telecommuting permitted. EOE M/F/D/V

Please apply by forwarding resumes to CitiusTech Inc. at us_jobs@citiustech.com. Please indicate the reference code(s) with respect to your position of interest in your communication. CTI49
