Provider – Offerings

Digital transformation services

Supporting Provider organizations by improving operational and clinical efficiencies, quality, and accessibility of care. Design and develop solutions, provide technology leadership, subject matter expertise and support to design and develop new greenfield applications using leading edge technology through CitiusTech Engineering.

Payvider & Specialty Services

We focus on driving digital transformation to enhance consumer experiences, streamline operations, and deliver personalized, high-quality care. Our help our clients stay competitive, foster patient loyalty, and achieve superior health outcomes, ensuring they can meet the unique challenges of their healthcare environments.

Areas of Expertise

Platform technology assessment

Providers often face challenges in performance processes inefficiencies, misaligned organizational structures, and outdated technology that hinder growth and operational stability. At Citius Healthcare Consulting our provider assessments identify key challenges, optimize processes and technology and deliver action plans to drive stability and growth across specialties and enterprise.

Performance optimization

Inefficient processes and lack of digital direction can hinder provider performance. We create digital roadmaps and optimize processes based on assessments to deliver maximized results.

Vendor product assessment

Technical & functional assessments of third-party HIS products against various criteria such as HIMSS Level 7 or industry best.

GenAI business solutions

Agent Assist, Prior Auth, Medassist, Smart Search etc. POCs developed with demos showing GenAI capabilities in business.

Areas of Expertise

Digital roadmaps

Specialty providers struggle to adopt a digital-first approach. We create digital blueprints and roadmaps to transform specialty providers into leaders in digital healthcare.

Consumer engagement for Payviders

Payviders often lack seamless, integrated digital experiences for consumers. We develop a digital blueprint to deliver an integrated and streamlined consumer experience for payviders.

Data strategy and business value

Help providers and Payviders derive value from data by creating a business engagement strategy and creating a business value and roadmap of data-driven use cases.
