

Transforming Prior Authorization for Payers to achieve CMS compliance and operational efficiency

Meet the future of Prior Authorization with CitiusTech's cutting-edge ePA solutions

Following CMS Final Rule published in Jan 2024, CitiusTech is leading the way in delivering state-of-the-art electronic Prior Authorization (ePA) solutions that integrate seamlessly with your existing systems using FHIR standards and accelerates your compliance. Reduce your administrative burden and enhance your operational throughput with our expertly crafted FHIR-powered GenAI solutions and services.

Key Service Offerings

- Current Prior Auth process assessment for compliance/operations optimization
- Electronic Prior Auth solution design & architecture recommendation
- FHIR-based interoperability layer enablement - Implementation, configuration
- Intelligent automation using software engineering, AI & GenAI
- UM platform modernization (CQL Rules, Microservices etc.)
- BI & reporting - Regulatory, operational, financial etc.

Value Propositions

Compliance Simplified

Navigate CMS Prior Authorization rules with our FHIR-powered ePA solutions, ensuring accelerated compliance and protection against potential penalties

Increased Efficiency

Dramatically reduce administrative costs and boost your decision-making processes with GenAI capabilities, reducing turnaround time and unnecessary expenses

Scalability & Flexibility

Adapt to changing healthcare landscapes with scalable solutions, allowing for easy integration with your existing systems and expansion for future needs

Our Experience

Partnering with industry leaders, CitiusTech has pioneered FHIR-based ePA solutions that has reduced Prior Authorization volumes by up to 8% weekly, streamlined operations and cut down unnecessary requests.

CitiusTech is a global IT services, consulting, and business solutions enterprise 100% focused on the healthcare and life sciences industry. We enable 140+ enterprises to build a human-first ecosystem that is efficient, effective, and equitable with deep domain expertise and next-gen technology.
